

Covid-19 Matchday Guidelines

Before the Match

- Everyone should self-assess for Covid-19 symptoms before every match. If you are symptomatic or living in a household with possible or actual Covid-19 infection you must not participate or attend.
- Where possible players/coaches to walk, ride to game, they should not use public transport
- Managers, Coaches and Players should not travel to matches with someone outside of their household unless social distancing (i.e. walking or cycling) can be practiced. If travelling with others outside your household, the government advice is for the passengers to wear face coverings during the journey.
- Parmiters Lower Car Park will be very busy as middle car park no longer in use.
- Suggest Away team park at top car park, entrance via the main gates
- Managers to meet players at the front of the sports center then all walk to the pitch, parents to stay in their cars until kick off
- All managers(including opponents) must sign in at the sports center. This is to help with track and trace.
- Players should be all kitted up ready to play and should have their own water bottler and hand sanitiser.
- Toilets will be in the sports center and will be managed by their staff
- Cones to be set up at the side of the 2m away from pitch for supporters to stand behind
- Supporters at the game should be limited to groups of six per group at one meter + socially distanced where possible
- Team cards/ID to be read out by team managers with players stepping forward.
- Match Delegates should have hand gel for supporters to use
- Corner Flags to be put out by Parmiters

During the Match

- Players should not spit or shout facing each other as per FA guidelines
- Supporters should not shout
- If a player gets injured, a member of their household can assist them, if present, but others will still need to socially distance unless a life or limb-threatening injury necessitates compromising guidelines to provide emergency care. If there is a first-aider or other medical personnel present, they should be equipped with the appropriate PPE to protect themselves and others if they need to compromise social distancing guidelines to provide medical assistance.
- Goal celebrations should be discouraged as per FA guidance
- During breaks social distancing should be maintained where possible
- There should be no handshakes after the game

After the Match

- No After games talks with parents
- All cones/barriers collected
- All rubbish must be cleared from the area before leaving the pitch. We do not want complaints from Parmiters.
- Managers must sign out
- Should any player or Supporter that that was at the game get symptoms within 5 days of the game then the manager must contact the Covid 19 officer who can then instruct all parties
- All Track and Trace information will be destroyed after 21 days

These are general guidelines for the whole club and can change at anytime in line with Government Guidelines

If there are any questions please contact Covid-19 Officer, Scott Parker via cassioburyrangers@gmail.com or 07818 085985.
